17 th December 12.30 – 2.30	Young Ringers' Practice – DenMisch simulated campanile	Oliver Coldrick

The programme appears reduced this year, as it is hoped that more events will be organised at branch-level. Every branch is encouraged to hold at least one 'Kaleidoscope' training day – helpers, a tutor and assistance with organisation can be provided by the Education Officer if desired.

Also, the Education Officer is actively looking for towers that would benefit from a series of targeted practices. If you think your tower or another tower you know would benefit from additional support for a few weeks please let Tim know!
